

# Outdoor Learning

## for Croft Infant School

**Fun, exploration and development of skills and crafts in our natural environment.**

Outdoor learning develops self esteem and confidence along with physical and emotional well-being. Awareness of own and others needs, independence and perseverance , while taking risks in a controlled environment.

We have developed balance, climbing and swinging obstacles, a zip line and agility courses.

A practical building and constructional area with loose parts and tools. Imaginary play in our wooden houses, tree house, mud kitchen and dens.

Sensory challenges, focused on movement and orientation, a Guided Rope Trail and Bare Foot Path

We have a large outdoor fire area for cooking and toasting marshmallows. Composting toilet and sanitation station.

# Outdoor Learning

Activities and resources

We will introduce the WILD Passport a framework, of skill, knowledge and competency to take learners from the very foundations of woodland and practical skills right through to an advanced level.

## **Nature - Woodcraft - Shelter - Fire - Rope**

The Session will start with a warm welcome and free play fun in the woods. We will split into two groups which alternate.

**Bear hunt and den building.**  
**Learning about bugs & basic tool skills**  
**Lunch and making camp fire bread to take home.**

**Leaf painting & natural materials modelling.**

At the end of the session we will join around the fire circle for hot chocolate and toasted marshmallows. Recap a little about the activities and answer any questions.

We will then gather together our crafts and bakes ready for the journey back to school.
